FOREWORD

I am most grateful for the opportunity to provide a message in this book which contains much a catalogue of good and exciting news. The Eastern Cape National Senior Certificate (NSC) Class of 2018 has made us very proud. These Grade 12 learners took advantage of many opportunities afforded to them to achieve success. The following opportunities were provided to all learners in the province:

1. A book on Tips for Success in the NSC Examinations;
2. Textbooks and study guides;
3. Past examination papers;
4. Extra lessons on radio and telematics;
5. Extra lessons after school and during weekends and holidays.

I want to thank most sincerely our hard-working teachers and principals who provided support to the Grade 12 learners throughout the year. Their dedication and commitment is highly valued.

I also want to thank parents and communities for all they have done to support the learners in many different ways, as a result of these efforts, the pass rate of the Eastern Cape has improved for the third year in a row. The pass rate improved from 56.8% in 2015 to 59.3% in 2016 to 65% 2017. In 2018 the results rose to a provincial record of 70.6%. This huge improvement provides the foundation on which to build our programmes to reach our next target of 75% in the near future.

Not only did the pass rate improve but the pass rate for Bachelors study increased from 17,6% in 2015 to 18,9% in 2016, 22,7% in 2017 and to an encouraging 27.4% in 2018. This 4.7% increase from last year indicates that the quality of teaching and learning is improving in a sustainable way in the Eastern Cape. Another indicator of quality is the improved pass rates in high enrolment subjects. In particular, the number of learners and the pass rate for Mathematics and Physical Sciences has increased.

Subject	No passing in 2015	No passing in 2016	No passing in 2017	No passing in 2018	% pass in 2015	% pass in 2016	% pass in 2017	% pass in 2018
Maths	7,596	8,240	8,472	16,576	33.4	34.8	40.7	45.5
Physical Sciences	6,903	7,828	8,301	16,582	43.4	48.1	57.5	66.5

I am very pleased that each of our 12 new districts was able to support our learners. We must remember that the new re-aligned districts were only established in April 2017. Despite this, all the officials in the districts worked tirelessly to ensure that the grade 12 learners achieved success in the NSC 2018, two districts achieved over 70% and another four achieved over 65%. Only two districts achieved under 60%. The Province has increased the number of districts that performed above 60%. Out of the 12 districts only one district (Amathole West) performed below 60%.

We also saw an increase in the number of schools with 60% and above from 523 in 2017 to 611 in 2018. The schools reaching a proverbial 100% increased from 34 in 2017 to 43 in 2018. The Province has no school that obtained zero percent pass rate. The province has also reduced the number of schools that performed below 10% from 8 in 2017 to 4 in 2018. Our effort is to completely eradicate such under-performance by 2020.

I wish to send my special gratitude to the entire examination family who worked tirelessly to ensure that the administration of examinations in the province is credible and incident free. It is because of the work of these many gallant men and women who work in examinations in this province. I felt very proud when Umalusi approved the NSC Grade 12 examinations of 2018, declaring them credible.

The chairperson of Umalusi Council endorsed the 2018 NSC Grade 12 by ambiguously indicating that, as Umalusi they were pleased to report that based on the evidence presented to Umalusi by the Department of Basic Education, the 2018 National Senior Certificate examinations were largely incident-free with a few minor disruptions experienced in some parts of the country. This attests to the success of the rigid measures put in place by DBE to ensure fool-proof and incident-free examinations. Umalusi further commended the Department of Basic Education and Provincial Departments of Education for working tirelessly to achieve this goal. While irregularities occur in all examinations/assessments, the South African public can rest assured that the examination system in South Africa has mechanisms to manage irregularities, to avoid lapses in the credibility of examinations.

The gains that we have made as Eastern Cape Province are highly appreciated and commendable. They can be attributed to the formidable leadership provided by the HOD, the SLMC and Top management of the Department. I wish to also thank the entire education family from classroom level to head office, as well as all the stakeholders, such as unions, parent formations and the business sector who made it their responsibility to 'walk the talk' and practically make education a societal matter.

The next few months will be very busy ones for all of us trying to sustain the upward trajectory we have started from 2016 through our *Education Transformation Plan*. As we work to strengthen the gains and pushing for more positive results, all eyes shall be on us. We are not trying to impress the world but all we do is to create strong foundational systems for the bright future of the thousands of Eastern Cape learners. The words of the first president of democratic South Africa Mr Nelson Mandela that, "Education is the most powerful weapon which you can use to change the world" will always remain the heartbeat of the service we offer as the Department of Education.

I have asked the ECDOE officials to ensure that detailed analysis of the results for Grade 12 is undertaken and that plans are in place to support the NSC Class of 2019 by the end of January 2019. We have also attached a summary of provincial learner performance results from Grade 1 to 11 for your information as well as a planning tool.

I wish to reiterate what I said last year that, families and parents place in our hands what they cherish most, on which their legitimate hopes and aspirations are hinged - their children. We must not by any measure take for granted the value we add into the lives of these children and their families if they succeed, and the pain and chaos we create in their lives and the lives and their families once they do not make it in their educational journey. We dare not fail them.

Thank you.

A handwritten signature in black ink, appearing to be 'M.G. Mvoko', written over a horizontal line.

HON. M.G MVOKO
MEC: EDUCATION
04 JANUARY 2019

OVERVIEW BY THE HEAD: EDUCATION

It is my great pleasure to congratulate the Grade 12 Class of 2018 for the academic work well done. Achieving 70,6% pass is indeed a pride to all in the schooling sector in our Province. Our learners have made us proud and indeed proved that hard-work breeds success. Further, this class of 2018 has heeded our call as the department that teaching and learning cannot occur in an environment that is disorderly, unpredictable and not focused to improvement. It is a known fact that this significant improvement by our learners was not without painful struggle. I sincerely thank you learners for being achievers. Go on with this attitude to the other levels of education and work places understanding that **“achievers operate differently. They have an eye for the essential...and always work from a clear sense of priority” (Keller & Papasan, 2012:35).**

Our schools that have registered significant improvement are characterised by order, discipline and accepted level of functionality – something that is commendable. Thank you so much to the principals who lead their schools for effective teaching and learning. I now concur with Riley and Ferrandino (2000:10) that **there is a strong connection between strong schools and strong principals. There has never been a quality school that doesn't have a quality principal.** Of paramount importance in schooling is that discipline is the foundation for success. Therefore, principals and other managers at all levels of the department are further encouraged to continue providing leadership at all times which is in the best interest of effective learning of learners. Essentially, there is **“no institution improves without being led” (John West-Burnham).**

Heartfelt gratitude is extended generally to all stakeholders in Education Department, parents and Labour Organisations. Colleagues, it is worth noting that mass participation is key to the success in education arena. Oliver Reginald Tambo (1967) puts it clearly when claiming that **there is no victory without mass participation.** Particular acknowledgement is extended to our dear educators for focusing on improvement of learner academic performance in spite of all the challenges they are faced with. In celebrating this significant achievement, know that indeed **there are no joys without mountains having been climbed. There are no joys without the nightmares that precede them and spring them into light... The joy that springs from the challenges is profound and the challenges will always be there. As long as there are human beings there will be challenges. Let no one speak of frontiers exhausted, all challenges met and all problems solved. There is always the joy of discovering, uncovering, and forging new forms, new ways... (Okri, 1997).**

Additional to intensified daily teaching and learning in our schools, the 2018 Learner **Attainment Improvement Strategy (LAIS) - Implementation Plan** launched in Amathole East District on 14 February 2018 has been indeed implemented as expected. LAIS Implementation Plan is underpinned by the following interventions:-

- Monitoring and supervision of learners in the extra tuition programmes which has assisted them to learn with comprehension;
- Relevant and targeted teacher development on areas that are subject specific;
- Mentors on principals in needy schools;
- Innovations and situational management by principals to stay focused on improving learner performance at all costs;
- Integrated approach through Social Transformation Cluster Work, where other government departments deliberately work with Department of Education for learner academic improvement;
- Mathematics and Science tuition programme which started from January 2018, especially in the rural and far flanged districts;

- Continuous and vigorous revision of previous years question papers to expose learners to Bloom's Taxonomy questioning. This invariably has prepared our learners for the examinations they sat for in 2018 academic year; and
- Increased level of e-learning in our schools with special focus on provisioning of educators with laptops and training on ICT programmes thereof.

Giving priority to LAIS Implementation Plan, we saw in 2018 a growing culture of:-

- Improved daily work performance management at all levels of the department;
- Maximization of tuition time by schools;
- Increased accountability sessions of the Chief Directorates conducted by the Superintendent General to assess quarterly work achieved. These sessions have afforded the department to continue providing the necessary and much needed support to districts and learners in schools;
- Executive leadership of the department, conducting road shows - dealing with impediments to effective teaching and learning as well as administering consequence management to principals of underperforming schools in terms of the South African Schools Act 1996

I thank all officials (Managers and administrative support) of the Department for supporting schools in their various ways of operations. Indeed it is commendable that we have values focused on individual learner's well-being. This gratitude further goes to the Leadership of the Department that sees learning as its core purpose.

Importantly, is that Grade 12 results of 2018 have improved from 65% in 2017 to 70,6% in 2018. This means that the Province has improved its pass rate by 5.6%. This is indeed a significant improvement.

- The Top Performing District in the Province is Nelson Mandela with an average of 76,1%.
- Of our 12 districts in the Department, 11 of them have performed with an average from 67 % and 76.1%.
- Only one district which has performed at 55,6%.
- The number of Bachelor pass rate has increased significantly from 15 380 learners in 2017 to 18 001 learners in 2018. This translates to 27.4% increase which is above the Provincial target of 25 %.

A special message to the 2018 class of Grade 12 is that, those who are on their way to tertiary education level, we wish you well in your future studies. Wherever you are, remember the issue of making learning a priority above all other activities knowing fully well that "***Education is the most powerful weapon that you can use to change the world***" (Nelson Mandela).

To those who unfortunately could not make it in 2018, they must know that the department has created a second chance for you to complete your academic programme. Therefore, you must grab and use it immediately with your full strength. This programme is premised from the wise words of Dr Nelson Mandela who once said ***the greatest glory in living lies not in never falling but in rising every time we fall.***

The priorities of the Department in 2019 are to:-

- Strengthen Implementation of revised Education System Transformation Plan.
- Ensure Continuous protection of tuition time in all institutions.
- Partner with business community and other stakeholders for focused interventions in schools.
- Monitor the implementation of National Strategy for Learner Attainment (NSLA) and revised Provincial Learner Attainment Improvement Strategy (LAIS) plan at school and Circuit levels.

- Focus and sequence teacher development activities meant to capacitate educators for effective teaching of learners in their respective schools as informed by the policies at our disposal.

In 2019, we still solicit cooperation and participation of all role players in our journey to further improve our results to at least 75% and more. This is possible when we are imbued with the mindset and actions that acknowledge the fact that there is no limit in how high one can achieve in life. The schools' monitoring and support programmes modelled or premised from Quality Learning and Teaching Campaign indeed work. Remember that forever education remains a societal issue.

Head: Education
Themba Kojana
04 January 2019

CHAPTER 1

INTRODUCTION AND POLICY IMPERATIVES

Introduction

The National Senior Certificate is a qualification based on the National Curriculum Statement that was first introduced for the first time in Grade 10 in 2006. The country is implementing a single system of education managed by the Department of Basic Education and administered by the Provincial Education Departments. Equally, there is a single system of examinations and assessment administered by nine different provinces and centrally managed and coordinated by the Department of Basic Education. It is important to note that to qualify to write the NSC examinations a candidate has to go through twelve years of schooling and must complete the programme requirements for Grade 10, 11 and 12, separately.

The class of 2018 represents the 11th cohort of learners to sit for the National Senior Certificate (NSC) and a fifth cohort to write a Curriculum and Assessment Policy Statement (CAPS) aligned examinations. These candidates entered the formal schooling system in January 2007 and the NSC is the culmination of twelve years of teaching and learning.

The final outcome of this twelve year journey is captured succinctly in this technical report. It is indicative of one of the most important indicators of performance of the schooling system in the 2018 academic year.

Almost all effective teaching and learning studies reveal that successful learning outcomes should not be expected without sufficient teaching and practice opportunities. Learning depends to some degree on time and effort, and warn that without adequate time on task, no learning is possible. The problem is not only the lack of time, but to a greater extent, the effective use of time for teaching and learning. Wastage and inefficient use of time will result in less teaching time and will make it impossible for teachers and learners to cover the curriculum.

THE PURPOSE OF THIS RESULTS ANALYSIS

We fully agree with Gibson(1979) when he says, “it is true that not every conceivable complex human situation can be fully reduced to the lines on a graph, or to percentage points on a chart, or to figures on a spread sheet, but all reality can be reasoned about. On the other hand, not to quantify what can be quantified is only to be content with something less than the full range of reason”. However, the effectiveness of any teaching and learning activity has to be measured through assessment and examinations. Wiggins (1990) believes that, “for assessment to be considered more authentic, is mainly when it directly measures how well a learner is able to perform tasks that are intellectually demanding and reflective of the real world in which such learner will one day operate”. This is what we, all in the education sector, should be striving for.

The main purpose of this results report is aptly summed up by Kanjee (2006), he firmly believes that for “assessment to have an impact on improving the quality of education. First, efficient systems and processes must be in place to provide relevant and timeous information to key role players in the education system. Second, information must be effectively used to take decisions to address the challenges that impact on the

learning. Third, appropriate feedback must be provided to all role players, especially learners, to enhance learning. The real issue is to develop an integrated and effective assessment system to address the challenge of improving learning in the classroom”.

This technical results report provides an overview of how the NSC Grade 12 class of 2018 cohort of learners has performed. This will further provide the much desired report card about the achievement of the set targets by different stakeholders and identify the areas of weaknesses and most importantly design appropriate response plans for next academic year(s).

It is incumbent upon all the critical stakeholders to embrace this results analysis report and utilize it wisely to devise the intervention plans for a better 2019 in line with their operational requirements and vintage points.

Furthermore, this technical report does not even begin to attempt to provide comprehensive solutions to our embedded educational challenges. It only creates a platform for all critical stakeholders in education to acknowledge that, whilst tremendous progress has been made, we continue to be plagued by various stubborn and persistent realities that thwart the realization of constitutionally and legally enshrined educational imperatives and goals.

This necessitates all of us to openly acknowledge failings, shortcomings and weaknesses, honestly identify what accounts for these and creatively and courageously confront them.

KEY FET CURRICULUM INTERVENTIONS

In order to reach an improvement of more than 2% in the 2018 NCS Examination the Department of Education put into place a rigorous strategy to support the Grade 12 cohort. This 2018 NSC Improvement Plan comprised the following activities:

- In-depth analysis of the NSC Results
- Strategy of support for Schools
- Strategy of support for School Management
- Strategy of support for Teachers
- Strategy of support for Learners
- Strategy of support for High Enrolment Subjects

At the start of the school year a trend analysis was done of the matric results from 2014-2018. The analysis was based on the number of learners who entered the NSC examination, number of learners who progressed, the number that wrote, the number of NSC passes, the pass%, the number of Bachelor passes and the % of Bachelor passes.

A further analysis was done on how the Grade 11 learners of 2017 performed in their final examination affording the department the opportunity to categorise the performance of not only the learners but also the schools.

Schools were categorized as follows: schools achieving between 40%; (40-64%); (65-74%) and (75-100%) in Gr 12 in 2017.

The department further examined the School based Assessment rejections of each schools and noted the subjects and reasons for the rejections.

An analysis was also done on the shortage of teachers and textbooks per subject and if there were problems encountered in the latter how this situation could be redeemed in the shortest possible timeframe.

Differentiated Strategy of support to schools was based on the 2017 results stating that: interventions; extra classes; two visits per quarter.

Schools performing 40 – 64%: received letters from the Head of Department (HoD); management intervention and subject interventions; extra classes; visits every week.

Schools performing < 40% letters and review ability to offer Grade 12.

Letters were sent to all principals regarding targets and expectations.

Promotion Bulletins for the recruitment and selection of Principals were advertised in February and March.

All schools were to receive at least one visit by the District Director and or appointed officials per term.

Schools were monitored to assess the availability of teachers per subject, observance of teaching time, curriculum coverage and attendance at schools.

Targeted teachers were requested to attend extra classes with learners

Target workshops focussing on subject specific content and methodologies were conducted.

Analysis of Grade 11 results to underpin targeted, customised interventions

Categorisation of learners for support

Tips for Success; (Booklet on advice to learners on subject specific content)

Textbooks for every subjects

Past exam papers and Study Guides were shared with learners by April 2018

Extra classes and camps with expert teachers were held during Autumn, Winter, Spring and Summer vacations.

Learners could also access lessons through Live Broadcasting (Telematics Programme), Radio and TV Lessons in high enrolment subjects from May to October 2018.

In the second term of 2018, great emphasis was placed on appropriate School-Based Assessment (this includes Oral marks, Practical Assessment Tasks for subjects with a practical component and the Physical Education Task (PET) for Life Orientation. The SBA contributes 25% of the total NSC pass mark in most subjects. In practical subjects the SBA counts 50%. It was essential that learners completed all the required SBA by the end of September 2018. The progress of the implementation of SBA was monitored through provincial moderation procedures including the moderation of the June Common Examination for the high enrolment subjects.

KEY POLICY AND REGULATORY CHANGES IN 2018

The Chief Directorate: Examinations and Assessment is effectively communicating its policy imperatives with its clients ranging learners, teachers, principals, education officials and stakeholders where necessary. The mode of dissemination examination information is through provincial examination assessment instructions. The department published 51 Assessment instructions in 2018. These included some of the following arranged from the last published:

- 51/2018 2018 Registration of new Examination Centres for Public Schools, all NSC
- Part-time Centres, AET Level 4 Centres and all Independent Schools
- 50/2018 Change of subjects in Grade 12.

- Circular: Circular E35 of 2018: Preparations for the Conduct and Administration of the South African Sign Language Home Language (SASL HL) November 2018 Examinations
- 49/2018 Commitment Agreement relating to the Progression Dispensation and the Application of the Multiple Examination Opportunity (MEO)
- 48/2018 Commitment Agreement relating to the 2018 National Senior Certificate (NSC) Examination
- 47/2018 Implementation of the Amended Senior Certificate, a Qualification for Adult and Out of School Learners.
- 46/2018 General Education and Training (GET) Band: 2018 Promotion and Progression Requirements: Grades 1 – 6.
- 45/2018 Mark Adjustments and Special Condonation Dispensation for Learners in Senior Phase (Grade 7 - 9).
- 44/2018 2018 Promotion and Progression Requirements: Grades 10 – 1.
- 43/2018 2018 Final Timetables (Amended). Grade 11 November Examination Grade 10 November Examination.
- Memo Rewrite of Life Orientation Common Assessment Task: Grade 12 National Senior Certificate (NSC) 2018
- 42/2018 Criteria for Application of the Multiple Examination Opportunities (MEO) in Grade 12
- 41/2018 GETC: ABET Level 4 Examination Timetable - November 2018 (Replacement)
- 40/2018 2018 Community Education & Training (AET) L4: Application for appointment as SBA moderator
- 39/2018 Participation in the Pledge Signing Ceremony relating to the 2018 National Senior Certificate (NSC) Examinations
- 38/2018 Procedures and Guidelines for the Conduct of the Final Practical Examinations in Computer Applications Technology (CAT) and Information Technology (IT) - National Senior Certificate (NSC) Examinations: November 2018
- 37/2018 Distribution of the Grade 12 2018 Technical Sciences Marking Guidelines for the Practical Assessment Task (PAT): National Senior Certificate (NSC) Examinations Technical Sciences PAT Marking Guidelines
- MEMO Advertisement of Posts of Marking Centre Managers; Irregularity Investigators and Deputy Centre Managers Script Control and Logistics for 2018/19 National Senior Certificate (NSC) and Adult Education and Training (AET) L4 Marking Sessions
- 36/2018 2018 Final Grade 12 National Senior Certificate (NSC) Examination Individual Bookmark Timetables for Learners
- 35/2018 GETC: ABET Level 4 Examination Timetable - November 2018
- 34/2018 Merging of the National Senior Certificate (NSC) Supplementary Examination with the June Senior Certificate (SC) Examination
- MEMO Re-marking, Re-checking and Viewing of Examination Scripts: 2018 May/June Senior Certificate (Amended) and Adult Education and Training (AET) L4 Examinations
- 33/2018 Guidelines for the Administration of Common Assessment Task (CAT) for Life Orientation: Grade 12 National Senior Certificate (NSC) 2018
- 33/2018 2018 Adult Education and Training (AET) L4-GETC: Application for Appointment as Marker

- 32/2018 Dates for Examinations and Moderation of South African Sign Language Home Language
- 31/2018 Procedures and Guidelines for the Conduct of the Final Practical Examination in Design and Visual Arts - National Senior Certificate: November 2018 Grade 12 Examinations 30/2018 2018 Final Timetables: Grade 9 Preparatory Examination and Grade 6 November Examination 29/2018 Formation of School Assessment Irregularities Committees (SAIC) and District Assessment Irregularities Committees (DAIC)
- 28/2018 2018 Final Timetables: Grade 12 Preparatory Examination
- Grade 11 November Examination and Grade 10 November Examination
- 27/2018 Common Preparatory Examinations and Centralised Marking of South African Sign Language Home Language (SASL HL) for Grade 12.
- 26/2018 AET Level 4 - Registration of Learners for 2018 December Examinations
- 25/2018 Application as Provincial Moderators for School-Based Assessment (SBA).
- MEMO Provision of Question Papers for Grade 12 June Examinations.
- 24/2018 Application for the Marking of 2018 Grade 12 Senior Certificate (Amended) Examination Scripts.
- 23/2018 2018 Advertisement of Posts of Examination Assistants (EAs) Amendment.
- 22/2018 Examination Guidelines and Examination Question Papers for Grade 12 National Senior Certificate (NSC) 2018 Examination - Technical Subjects.
- 21/2018 GETC: ABET Level 4 Examination Timetable - June 2018.
- 20/2018 2018 Final Grade 12 National Senior Certificate (NSC) Examination Timetable.
- 19/2018 National Senior Certificate: Application for Appointment as Marker: Memorandum
- 18/2018 2018 Draft Timetables: Grade 12 Preparatory Examination, Grade 11 November Examination Grade 10 November Examination 17/2018 Errata and Additional Information on the 2018 Grade 12 Practical Assessment Tasks (PATs) for Information Technology and Electrical Technology: National Senior Certificate.
- 16/2018 2018 Final Grade 12 June Common Examination Timetable
- 15/2018 Distribution of the 2018 Grade 12 Technical Sciences Practical Assessment Task (PAT): National Senior Certificate (NSC) Examinations PAT
- 13/2018 2018 Draft Grade 12 June Common Examination Timetable
- 12/2018 2018 Senior Certificate (SC) Examinations Time Table
- 11/2018 South African Sign Language Home Language (SASL HL) Exemplar Question Papers for Grade 11 (2018)
- 10/2018 Distribution of Grade 12 Practical/Performance Assessment Tasks (PATs) for 2018: National Senior Certificate (NSC) Examinations
- 09/2018 National Senior Certificate: Application for appointment as Chief Marker or Marking Moderator: 2018 - 2019 + Memo: Extension to deadline for submission
- 08/2018 Applications for Examiners and Internal Moderators: + Memo: Extension to deadline for submission
- 2019 - 2020 National Senior Certificate (NSC): Grade 12 Preparatory Examinations

- 2019 - 2020 National Senior Certificate (NSC): Grade 11 Examinations
- 07/2018 2018 Registration of Grade 12 National Senior Certificate (NSC) learners
- 06/2018 Assessment and Examination Accommodations and Concessions Applications: 2018.
- 05/2018 2018 Site Based Assessment (SBA) Tasks for AET Level 4
- 04/2018 AET Level 4: May/June 2018 Examinations - Registration of Learners
- 03/2018 2017 National Senior Certificate Examinations (NSC): Supplementary Examination Entries and Time Table
- 02/2018 Re-marking, Re-checking and Viewing of Examination Scripts: 2017 National Senior Certificate (NSC) and AET L4 Examinations

CONCLUSION

Measuring progress is important. We need to know what we are doing is having impact against another approach that might yield better outcomes, but the current fetish of crude numerical quantification in education is misleading and fundamentally inappropriate for the unpredictable nature of the classroom. We need better ways of recording the phenomenon of the classroom that captures more than simply test scores and arbitrary judgments on teachers, and seeks to impose an order where often there is none (<https://chronotopeblog.com/2015/04/04/the-mcnamara-fallacy-and-the-problem-with-numbers-in-education/>).

We sincerely hope that this technical results analysis report shall provide the necessary direction to be ensued in making timeous intervention in order to change the fortunes of our educational imperatives for the better. The focus must be on achieving key outcomes in all areas of our operations against the measurable indicators set and all of us who occupy such responsible positions must be held accountable for achieving them.

CHAPTER 2

REQUIREMENTS FOR THE REQUIREMENTS FOR THE NATIONAL SENIOR CERTIFICATE

To qualify for a National Senior Certificate, a learner must offer seven approved subjects and provide full evidence of School Based Assessment for each subject.

For a candidate to obtain a National Senior Certificate, she/he must:

- a) complete the programme requirements for Grades 10, 11 and 12 separately and obtain the distinct outcomes and associated assessment standards for
- b) all three years, and
- c) comply with the internal assessment requirements for Grades 10, 11 and 12 and the external requirements of Grade 12;
- d) achieve 40% in three subjects, one of which is an official language at Home Language Level;
- e) achieve 30% in three subjects; and
- f) provide full evidence in the school-based assessment component in the subject failed.

The requirements are tabulated as follows:

Promotion requirements	Percentage required
Subject 1: Home Language	40%
Subject 2	40%
Subject 3	40%
Subject 4	30%
Subject 5	30%
Subject 6	30%
Subject 7	0 - 29% (Proof of SBA in the failed subject)

Minimum achievement requirements for the awarding of the National Senior Certificate to candidates with special needs.

Learners who experience barriers to learning are allowed to follow alternative pathway to obtain a National Senior Certificate. Such candidates who experience barriers to learning are defined as learners with special educational needs. A number of concessions, related to the nature of the barrier to learning, identify permissible variants to the rules of combination allowed for the NSC. Barriers to learning identified in the policy include: visual, aural, hearing impairment, aphasia, dyslexia and mathematical disorders such as dyscalculia.

The endorsed National Senior Certificate is offered to candidates who cannot, despite the concessions granted in the policy, meet the stipulated requirements and who will be awarded the Endorsed National Senior Certificate for learners with special educational needs. Despite the consensus provided in policy there are many checks and balances in places to ensure that the qualification remains at an equivalent standard to the NSC for the main stream.

1. ASSESSMENT OF THE NATIONAL SENIOR CERTIFICATE

Assessment in the NSC subjects is based on the external examinations and internal assessment conducted by the school. The external examinations constitute 75% of the final promotion mark and the internal assessment constitutes 25%. In subjects like Art and Music with a practical component, the practical assessment constitutes 25% which implies that the external examination carries a weighting of 50% in these subjects.

Achievement in the NSC is recorded on a seven (7) point scale which is categorized as follows:

ACHIEVEMENT LEVEL	ACHIEVEMENT DESCRIPTOR	MARKS %
7	Outstanding Achievement	80-100
6	Meritorious Achievement	70-79
5	Substantial Achievement	60-69
4	Adequate Achievement	50-59
3	Moderate Achievement	40-49
2	Elementary Achievement	30-39
1	Not Achieved	0-29

Minimum requirements for admission to Higher Education

Minimum Higher Education Admission requirements in accordance with the 3 levels of undergraduate programmes are as follows:

- **Higher Certificate**

The minimum admission requirement is a National Senior Certificate (NSC) with a minimum of 30% in the language of learning and teaching of the Higher Education Institution as certified by Umalusi, the Quality Assurance Council .

Institutional and programme needs may require additional combinations of recognized NSC Subjects and levels of achievements.

- **Diploma**

The minimum admission requirement is a National Senior Certificate (NSC) as certified by Umalusi with an achievement rating of: **4 x 40%- 49% or better (4 x Level 3 including Home Language)**

Institutional and programme needs may require additional combinations of recognized NSC Subjects and levels of achievements.

- **Bachelor's Degree**

The minimum admission requirement is a National Senior Certificate (NSC) as certified by Umalusi with an achievement rating of: **4X50%-59% or better (4 x Level 4s Including Home Language)**.

2. THE MANAGEMENT AND ADMINISTRATION OF THE 2018 NSC EXAMINATIONS

3.1 Registration of candidates and examination centres

The Province has a total number of 82 257 full time candidates registered for 2018 National Senior Certificate examinations in 936 full time examination centres.

The figures in Table 1.1 and Table 1.2 below provide a comparison of the number of candidates who have entered for the National Senior Certificate (NSC) examinations in the Province this year, 2018 and previous 6 years. It is worth noting that the Eastern Cape has the fourth largest number of candidates for the NSC after Kwa Zulu Natal, Limpopo and Gauteng provinces.

TABLE 1.1**Number of Full Time candidates enrolled for NSC: 2012-2018**

Year	Number Full-time	Increase / Decrease
2012	69 427	1358
2013	74 980	5 553
2014	69 294	-5 686
2015	91 810	22 516
2016	92 748	938
2017	82 257	-10 491
2018	81 842	-415

The number of candidates has decreased in 2018 when compared to 2017.

TABLE 1.2**Number of Examination Centres: 2012- 2018**

Year	Number of Centres	Increase / Decrease
2012	926	8
2013	926	0
2014	923	-3
2015	924	01
2016	926	02
2017	927	01
2018	936	09

The number of centres has increased in 2018 when compared to 2017 due to rationalization and new schools offering Grade 12 for the first time.

The number of candidates has decreased compared to 82 257 candidates that were registered in 2017 in 927 examination centres. This decrease in the number of registered candidates is due to the strict implementation of the progression policy as promulgated by the Minister of Basic Education through Government Gazette No. 9886 of 28 December 2012, as well as the choice by learners to opt for Multiple Examination opportunities (MEO).

The Province registered a total of 16 753 progressed learners in 2018 which has increased compared to 14 289 learners that were progressed in 2017. Grade 11 promotion schedules were verified, and it was discovered that promotion requirements were not adhered to by some schools and that led to learners being unfairly advantaged – 2113 learners from 323 schools were incorrectly progressed or disadvantaged - 2009 learners from 350 schools were incorrectly retained. Strict adherence by schools to the set criteria on promotion requirements is always emphasized:

Criteria for a learner to progress

- Learners must have failed to satisfy the promotion requirements of either Grade 10 or Grade 11, and repeated either Grade 10 or Grade 11;
- The learner must have passed LoLT and any other 3 of the 7 subjects offered (Life Orientation included).³ If the HL is the LoLT of the learner, for the purpose of progression only, the learner must obtain 30% to ensure equivalence with the pass requirements for the First Additional Language;

- The learner must have attended school on a regular basis. Absenteeism in excess of 20 days, without a valid reason, will disqualify the learner from being progressed;
- The learner must have complied with the prescribed SBA requirements for that academic year.

The progressed learners were also allowed by the Minister to choose an option of Multiple Examination Opportunities (MEO) wherein, a learner can write less than six subjects and write the remaining subjects in the following year.

3.2 Monitoring of the writing of the examinations

A total number of 153 question papers (both English and Afrikaans versions for content subjects) were printed and distributed to 936 full time schools and 122 part time centres.

The province intensified monitoring of the writing of the examinations in 2018 by deploying 42 provincial and 837 district monitors across all 23 districts, including nodal and distribution points. The examination centres were audited and categorized into 117 high, 154 medium and 733 low risk examination centres.

High Risk Centres Examination centres which have previous cases of group copying and repeated cases of irregularities.

Medium Risk Centres Examination centres with cases of minor administrative irregularities.

Low Risk Centres : Examination centres without previous cases of irregularities.

3.3 Printing and Security of question papers

In preparation for the 2018 Grade 12 cohort, Examinations and Assessment Directorate set common examinations in June, focusing on 12 gateway subjects, including new subjects, viz. Technical Mathematics and Technical Sciences. This was done to strengthen assessment in schools and also to ensure that learners are exposed to standardized assessments. The marked scripts were centrally moderated and feedback was given to schools and relevant stakeholders for intervention purposes.

A total of 133 question papers were also set for Preparatory Examinations, wherein the learners were also exposed to the following new subjects: Technical Mathematics, Technical Sciences, specialization subjects in Mechanical, Electrical and Civil Technologies.

Two schools (Efata School for the Blind and St Thomas for the Deaf) made history by taking part in South African Sign Language which was signed for the first time in the country.

The 2018 NSC printing of question papers (153 papers) commenced on 8 October 2018 and completed on 11 November 2018.

The province is working in collaboration with PROVJOINTS in ensuring that all measures are taken to strengthen security during examination. A deployment plan was developed where police officials were assigned certain areas in the province within their jurisdictions. Meetings were held on regular basis to keep abreast with the developments and any potential risks to the examinations.

3.4 School Based Assessment (SBA)

In addition to the formal examination papers written at the end of the year, candidates are also expected to complete a variety of assessment tasks at school level. Requirements are spelt out in the policy document, *National Protocol on Assessment* and are meant to allow the candidates to work consistently throughout their Grade 12 year and to be rewarded by accumulating marks towards their final result. These assessment tasks cover a wide variety of activities.

All these components are put together to produce the candidate's School Based Assessment mark (SBA) which constitutes 25% of the final mark. For Life Orientation, the larger component of the final promotion mark is school based and external assessment which is referred to a Common Assessment Task (CAT) constitute 20%. The SBA must receive continuous attention throughout the year.

The absence of a School-Based Assessment and/or a Practical Assessment Task mark in any subject, without a valid reason, result in the candidate, registered for that subject, receiving an incomplete result. The candidate will be given three months before the commencement of the next sitting to submit outstanding work or present him/herself for School-Based Assessment and/or a Practical Assessment Task. Should the candidate fail to fulfill the outstanding School-Based Assessment and/or Practical Assessment Task requirements, such a candidate will not be resulted and he/ she must repeat the subject and redo the School-Based Assessment and/or Practical Assessment Task component for that subject.

In the event of a learner not complying with the requirements of School-Based Assessment and/or Practical Assessment Task in any subject in Grades R-12, but where a valid reason is provided:

- He or she may be granted another opportunity to be assessed in the assigned tasks, based on a decision by the Head of the assessment body.
- The learner must, within three weeks before the commencement of the final end-of-year examination of the relevant grade submit outstanding work or present himself or herself for School-Based Assessment and/or Practical Assessment Task. Should the learner fail to fulfil the outstanding School-Based Assessment and/or Practical Assessment Task Assessment requirements, he or she, registered for that subject will receive an incomplete result.

In order to ensure compliance with SBA requirements in 2018, the following processes were put in place:

- The schools, whose SBA marks were rejected by Umalusi during the standardisation process were informed and made to account and indicate strategies that they will use to avoid the recurrence of the situation.
- Monitoring of SBA moderation at all levels by Curriculum FET, Examinations and Assessment Chief Directorates, Department of Basic Education and Umalusi.

SBA was verified by both DBE and Umalusi commencing from July to October 2018, on sampled schools, subjects and districts. Analysis of learner performance for June common examinations was done and feedback was provided to schools and relevant stakeholders for remedial action.

3.5 Marking

3.5.1. Recruitment of markers

This was advertised through Assessment Instruction No 19 of 2018. Specific requirements were indicated as per the PAM document and provisional additions were approved by the Head of Department. Markers were selected at the provincial office by the panels consisting of Chief Markers and Moderators and teacher union representatives as observers. Panels were chaired by provincial officials. Recommended markers were further verified by DBE and Umalusi for authentication. Internal Controls and Human Resources Units participated in the verification and selection processes. After all these verifications, the markers' lists were approved by HOD.

3.5.2. Marking Centres

Marking centres were established in line with the regulations and PAM directives. A total of 18 marking centres for NSC were used and one marking centre was used for ABET.

Amongst the NSC centres, there was one new marking centre, Mvenyane SSS in Maluti sub-district. This is as a result of the principle of rotation and giving an opportunity to the formally disadvantaged schools and communities/areas. The province adopted a principle of gradually infusing schools as marking centres from poor communities and marginalized rural areas. This new marking centre performed exceptionally well in every respect across the board.

Marking centres commenced from 01 to 14 December 2018. Markers were trained by the Chief markers and Moderators. To manage this process, a total number of 19 Centre Managers, 19 Irregularity Officers, 62 capturers, 10 drivers, 38 script control officials and 38 claims officials were utilised. These officials were trained on 23 to 24 November 2018.

Marking was monitored by the senior management of the Department as well provincial officials.

4. Management of Irregularities

In 2018, the province has drastically reduced the number of irregularities. This reduction of irregularities is attributed to the charging of implicated Chief Invigilators and Invigilators as well as sanctions for affected learners who were involved in group copying. There are other measures that were in place in order to reduce irregularities during 2018 examinations such as pledge signing ceremony that took place across all schools in the Province on 10 October 2018, Signing of Commitment Agreement by both parents and candidates, Community Radio programmes were candidates were alerted on irregularities that may occur during the writing of examinations.

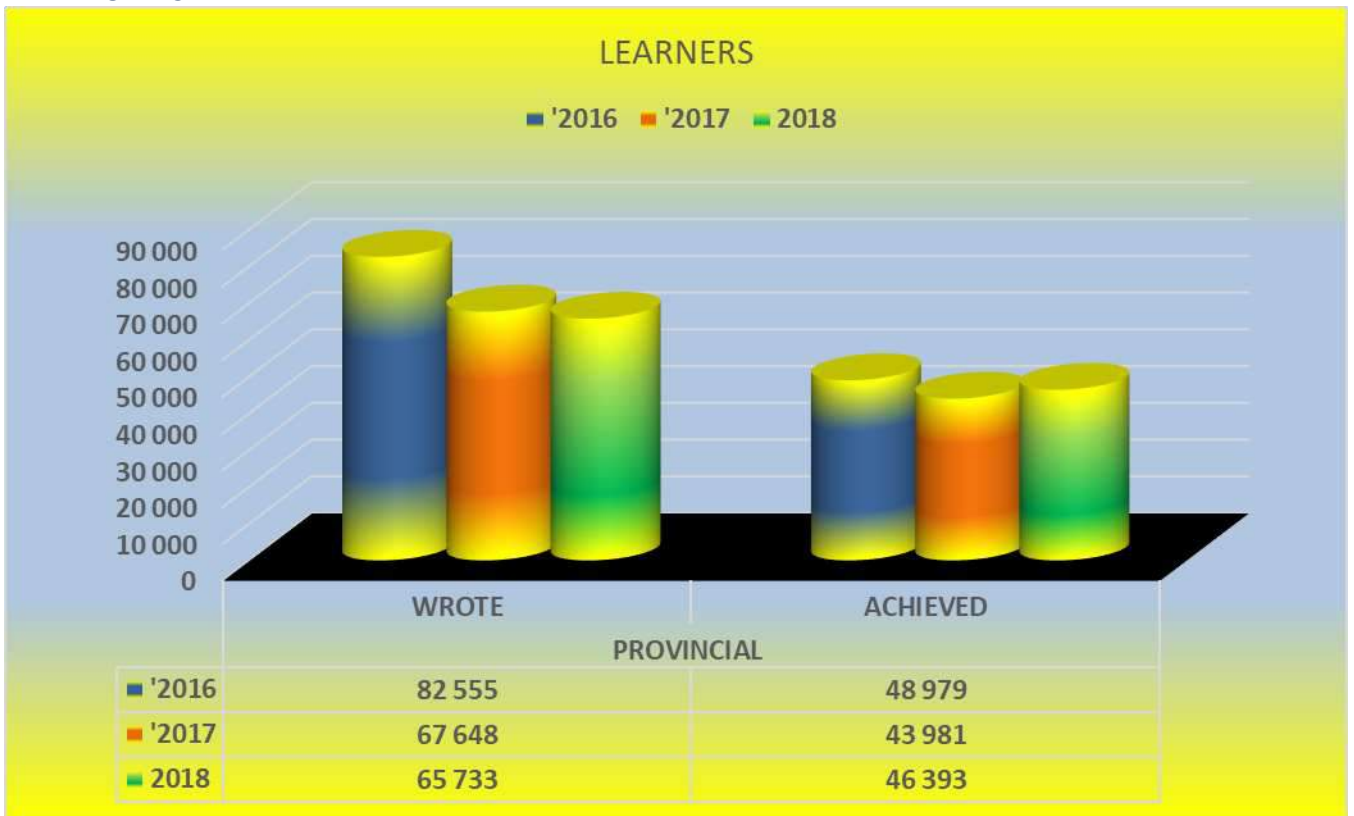

Policies are only as good as the paper they are written on if they are not adhered to. If, for example, unauthorized persons are allowed free access into restricted areas, then the policy on security of examination materials becomes unenforceable and ignored, which could lead to a major breakdown. Similarly, if staff members charged with implementing policy either choose to ignore policy or do not know the policy, their actions become subject to judicial review, which may be both unnecessary and wasteful. Implementation of policies that impact on the credibility of the examination processes such as, promotion and progression policy, subject changes, invigilation and script control, must remain a priority to all staff members within the Department of Education and consequence management must be instituted against the culprits.

CONCLUSION

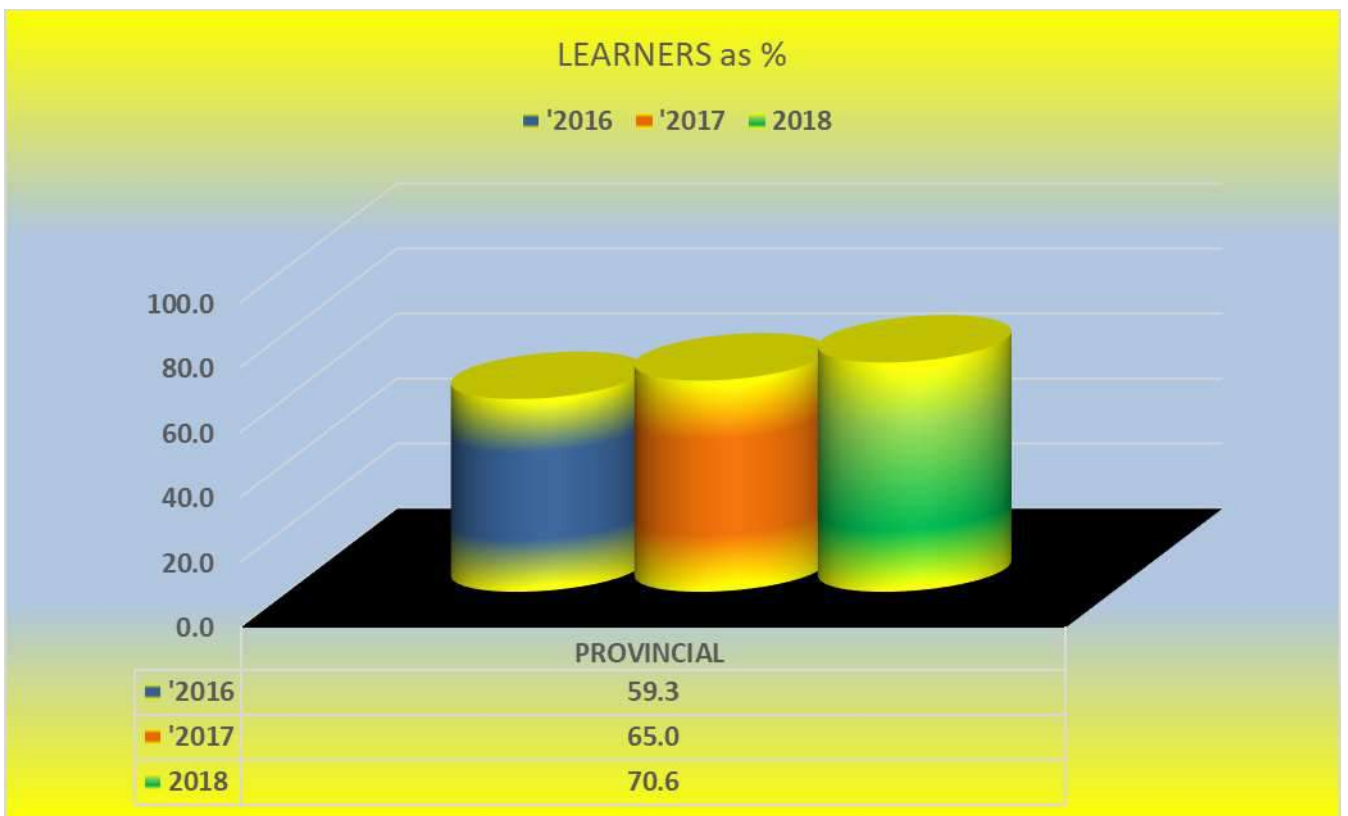

The mandate of the Examinations and Assessment Directorate is to deliver a credible, effective, efficient and error free examination and assessment service to its users. This, despite the many challenges the Directorate faces, has managed to continue to deliver credible 2018 NSC examination and will no doubt, continue to provide zero defect examinations in the years to come.

Working together we can achieve more.
